Spring has really sprung on our GSCW campus and I think its sprung right into all the girls. It's made some of our "Jessies" lazy but the majority of our gals are full of pep and energy. Mrs. Martin even accused two of her Atkinson girls of having "running fits" one night after supper when they made a mad dash right across front campus. Is it energy or are they trying to reduce?

I happened to b walking along on front campus one afternoon and all of a sudden I heard music from all sides. I was beginning to wonder if "judgment day" had arrived. I looked around and what should I see but the girls of Bell, Terrell, and Atkinson dancing on their porches. It looked as though they were having heaps of fun.

It seems that everyone has been trying to get a sun tan but the music majors. Our music masters looked so very cute with their big straw hats on while they were rgistering people during the music festival. None of them turned up with red noses the next day either.

I was sorry to hear today that Dr. Walston is confined with poison ivy. I know we all hope she will soon be back with us (she probably will be by the time this article goes to press).

I was eavesdropping again the other night and I really heard something good on the editor of our wonderful, marvelous paper, (That's a plug!) Sheand her roommate were on the bus coming from Athens the other night and all of a sudden there occurred an explosioon in their seat. About that time I got the door slammed in my face so I don't for you. Couldn't it be to learn all that the people know the rest of the story. So sorry!

I'm wondering what Miss Chapin is doing to her P. E. classes lately. I happened to be passing by her class which was playing deck tennis and I noticed that two girls each had one finger in a splint. It didn't seem to be bothering their playing though, as their side won the game.

> We cannot help but notice and appreciate the endly atmosphere which exists between faculty nd studnts here. Our reatively small classes lead informality; we have the opportunity to know faculty, and to let them know us.

Most of us do not realize that under our CGA, students make our own rules, and that we nish ourselves for breaking them, and that through is system of Student Government we have fewer les than any other Southern woman's college.

Though our class buildings and dormitories are inveniently compact, we are fortunate to have a mpus which does not end within the limits of illedgeville. Weekends may be spent at Lake turel or at the camp on Lake Burton (we are the aly college which can boast of two such places hich offers swimming, boating, fishing, and camp le.) Our campus recreation includes among other ings, indoor swmming, tennis on cement courts owling, skating, bicycling, horseback riding, and ıting at Nesbit Woods.

No other college can boast of a kitchen in evy dormitory, and recreation hall facilities for all students. Nor do other schools have an Annual Hike or Parents' Day, or Herty Day, or Golden

programs? And do you realize how fortunate you them are to see well known plays such as "Skin of Our Teeth" and "Antigone," produced by students with the most professional touches?

GSCW offers degrees in almost anything a student could want; in fact, there are approximately 25 majors and minors offered here.

It is interesting to note that the state allocated funds to GSCW are more than four times as much as they were in 1939 per capita student.

If we take advantage of the resources at GSCW we have every opportunity to become a "well rounded" person. We cannot build the school, but we can make the school. GSCW is only a "prospective covering" to us. Our school cannot be outstanding unless we take advantage of the esources and are outstanding ourselves.

### Who Are You?

Who are you? Are you anyone besides just your parents' child? Have you ever accomplished anything worth being remembered for? If not. are you preparing yourself for a useful and admirable life, a life which will benefit others, and one from which you yourself will profit? Why are you put on this earth? Certainly there is an ans said. wer to these question. Certainly there is a purpose before you have known and to increase this knowledge from your own brain and to better this world with your own achievements? By doing this, by getting all you possibly can and by putting, even now, back into the world from yourselves, you will have helped future generations—your posterity.

### DAVID THE KING **By Gladys Schmitt** Reviewed by Susanne Lennon

David the King is a story taken from the Bible and made into a deeply moving and captivating novel. It portrays David's rise from being a simple shepherd boy to become a king and, of more importance, his rise from egoism and crassness to deep understanding and selflessness.

David's sins at times predominate the book, but The best musicians and lecturers are brought they serve to make his final moral triumph more to our campus every year. Incidentally, did you wonderul. To have omitted his weakness would know that students help select the guests for these have taken something away from his victory over

However, I think his retribution for each and every one of his misdeeds was slightly forced. Amnon, the result of Noi's seduction, eventually brought ruin to David's favorite daughter, Tamar. Bathsheba's firstborn died as if to punish David for his adultery and murder of Bathsheba's husband. People usually suffer for their sins, but punishment does not always come in the form of a physical

Noi interested me more than any of the other minor characters. She had strength in her gentleness and peace in her resignation. These words, which she spoke just before her quiet death, made more impression on me than anything else connected with her in the story.

"We are, and then we are no more. It is as sim ple as blowing out a lamp or closing a door."

Noi loved a man she could never hope have but loving him was the only thing she asked.

The thing that impressed me more than anything else in the entire book was Gladys Schmitt's interpretation of religion, given in the little Shuman maid's conservation with David:

"Why do we stand forever shricking into the sky, 'I am everything, let the Lord behold me,' when it is plain that we are nothing? That He does not see us is a small matter, once we have deliverd ourselves of the burden of our pride and our selfichness. All that is needful is that we should see God."

I think that David at last understood when he

"To love, to yearn to lose oneself in any mortal beloved, is to strive darkly, imperfectly, in spite of exigencies of the flesh and world, to become a part of the Everlasting Being from whom we issue forth and unto whom we go at last."

DAVID THE KING, is a book that I would recom mend to everyone. I have never read a book the expresses more genuine, deep felt emotion
